Gorman retires after 50 years with Vision Center

July 21, 2014

Family Vision Center honored Dr. Michael Gorman as he retired from the Family Vision Center that he founded 50 years ago. The retirement party was at Testo's Restaurant in Bridgeport on July 12.

For 30 years, Gorman served as president of the Connecticut Visual Health Center which provides continuing education for optometrists in Connecticut.

Family Vision Center optometry has locations in Stratford and Bridgeport and is said to be one of the oldest and largest privately owned family eye care practices in Connecticut.
